

# Go Green Comfort Care Plan

## Mini Split Maintenance Plan: Your Year-Round Comfort Solution

### Why Regular Maintenance Matters

Regular maintenance of your mini split system ensures optimal performance, energy efficiency, and a longer lifespan for your equipment. At Go Green Heating & Air Conditioning, we take pride in providing comprehensive maintenance services to keep your home comfortable year-round.

### What Our Maintenance Includes

#### Initial Inspection

- **Visual System Check:** We inspect both indoor and outdoor units to ensure everything is in top condition.
- **Leak Detection:** Our technicians inspect accessible refrigerant lines and connections for any potential leaks.

#### Indoor Unit Care

- **Filter Cleaning:** Clean or replace air filters to improve air quality and system efficiency.
- **Evaporator Coil Cleaning:** Remove dust and debris from the evaporator coil for better cooling performance.
- **Blower Wheel Inspection:** Inspect the blower wheel to ensure performance.
- **Drain Pan Maintenance:** Clean the drain pan to prevent mold and bacteria buildup.
- **Thermostat Check:** Verify the correct operation of your thermostat.
- **Electrical Inspection:** Check and tighten all electrical connections to ensure safety and reliability.

## Outdoor Unit Care

- **Condenser Coil Cleaning:** Clean the condenser coil to enhance heat exchange efficiency.
- **Fan Motor and Blade Check:** Inspect and clean the fan motor and blades for optimal performance.
- **Refrigerant Level Check:** Ensure refrigerant levels are within the recommended range.
- **Electrical Component Inspection:** Inspect and tighten all electrical connections and components.

## System Testing

- **Operational Test:** Run your system to verify proper operation in both cooling and heating modes.
- **Temperature Differential Measurement:** Measure the temperature difference between return and supply air to ensure efficient operation.
- **Control Check:** Verify all system controls are functioning correctly.

## Additional Services We Offer

- **Deep Cleaning:** Comprehensive cleaning service, including mold removal and blower cleaning.
- **Refrigerant Top-Up:** Add refrigerant if levels are low (additional cost).
- **Repairs and Improvements:** We can note any necessary repairs or recommended upgrades.

## Benefits of Regular Maintenance

- **Improved Efficiency:** Regular cleaning and inspections help your system run more efficiently, saving you money on energy bills.
- **Extended Lifespan:** Proper maintenance extends the life of your mini split system, protecting your investment.
- **Enhanced Comfort:** Ensuring your system is in peak condition provides consistent and reliable comfort in your home.
- **Better Air Quality:** Clean filters and coils contribute to healthier indoor air quality.

## Join Our Maintenance Plan

Become a Go Green Maintenance Member and enjoy:

- **Discounts on Repairs:** Save 10% on any repair services.

- **No Overtime Rates:** Avoid extra charges for after-hours service.
- **Priority Scheduling:** Get priority service for any maintenance or repair needs.
