

# Go Green Comfort Care Plan

## Gas Furnace Maintenance Plan: Your Year-Round Comfort Solution

Keep your home warm and your energy bills low with the Go Green Gas Furnace Maintenance Plan. Our expert technicians ensure your gas furnace runs efficiently and reliably all year long.

### Plan Highlights:

- **Two Comprehensive Visits:**
  - **Initial:** Thorough cleaning, system check, and personalized consultation.
  - **Annual:** Follow-up maintenance and seasonal tuning.
- **Priority Scheduling:** We work around your schedule for convenient appointments.
- **10% Off Repairs:** Save on any necessary fixes throughout the year.
- **Expert Care:** Our skilled technicians maximize your furnace's lifespan.
- **Energy Savings:** Improved efficiency means lower utility bills.
- **Peace of Mind:** Enjoy a comfortable home without worry.
- **Additional Services:** Deep cleaning, indoor air quality enhancements, filter upgrades, and repair recommendations.

## What's Included in Our Gas Furnace Maintenance

### Why Regular Maintenance Matters

Regular maintenance of your gas furnace ensures optimal performance, energy efficiency, and a longer lifespan for your equipment. At Go Green Heating & Air Conditioning, we take pride in providing comprehensive maintenance services to keep your home comfortable and safe throughout the year.

### What Our Maintenance Includes

## Initial Inspection

- **Visual System Check:** We inspect the furnace and surrounding area to ensure everything is in top condition.
- **Leak Detection:** Our technicians check for any gas leaks and ensure all connections are secure.

## Furnace Care

- **Filter Cleaning:** Clean or replace air filters to improve air quality and system efficiency.
- **Burner Inspection and Cleaning:** Inspect and clean burners to ensure efficient combustion.
- **Heat Exchanger Inspection:** Check the heat exchanger for cracks or signs of wear to prevent carbon monoxide leaks.
- **Blower Motor Inspection:** Inspect and clean the blower motor and wheel for optimal airflow.
- **Combustion Testing:** Conduct combustion tests to ensure the furnace is operating safely and efficiently.
- **Flue Inspection:** Ensure the flue is free of obstructions and properly venting exhaust gasses.
- **Thermostat Check:** Verify the correct operation of your thermostat.
- **Electrical Inspection:** Check and tighten all electrical connections to ensure safety and reliability.

## System Testing

- **Operational Test:** Run your system to verify proper operation.
- **Temperature Measurement:** Measure the temperature rise across the heat exchanger to ensure efficient operation.
- **Control Check:** Verify all system controls are functioning correctly, including safety controls.

## Customer Report

After each maintenance visit, you will receive a detailed report outlining the condition of your system, any work performed, and any recommended actions.

## Additional Services We Offer

- **Deep Cleaning:** For systems with excessive buildup, we offer a comprehensive cleaning service that includes pulling and removing the blower motor to ensure optimal performance.
- **Indoor Air Quality (IAQ) Enhancements with Respicaire:** Enhance your home's air quality with Respicaire products. Respicaire offers advanced air purification solutions that effectively reduce airborne particles, allergens, and pathogens, providing cleaner, healthier air.
- **Filter Upgrades:** Upgrade to high-efficiency filters to capture more airborne particles and allergens, providing cleaner air in your home.
- **Repairs and Improvements:** We can note any necessary repairs or recommended upgrades to keep your system running smoothly.

## Benefits of Regular Maintenance

- **Improved Efficiency:** Regular cleaning and inspections help your system run more efficiently, saving you money on energy bills.
- **Extended Lifespan:** Proper maintenance extends the life of your gas furnace, protecting your investment.
- **Enhanced Comfort:** Ensuring your system is in peak condition provides consistent and reliable comfort in your home.
- **Better Air Quality:** Clean filters and burners contribute to healthier indoor air quality.
- **Safety Assurance:** Regular inspections help prevent potential hazards like gas leaks and carbon monoxide poisoning.

## What We Offer:

- **Thorough Inspections and Cleaning:** We keep your system in peak condition.
- **Performance Optimization:** We adjust your furnace for optimal energy use.
- **Personalized Recommendations:** We help you make informed decisions about your system.

## Why Go Green?
